

CHICAGO POLICE MAKE A BIG HAUL.

They Capture Four Burglars
and \$25,000 Worth
of Plunder.

PRISONERS UNDER THIRTY.

Although So Young, Their Pic-
tures Adorn the Rogues'
Galleries of Many Cities.

Chicago, Oct. 15.—A most important round-up of burglars has been made by Chief of Detectives Collier and four of his men. The captives are "Shenoy Joe," Rubenstein, Harry Rogers, James Flaherty and James Williams. All are young men, not one being over thirty-five.

Of these, Rubenstein, who comes from Canada, is the leader, and his brains, the police declare, planned all the operations of the gang. Rogers, who is also known as "The Dip," also comes from Canada, while Flaherty and Williams have made New York their headquarters.

Besides these four men, the police have secured \$25,000 worth of stolen property, which is now at Police Headquarters awaiting identification. Letters in the men's possession, which have passed between them, showed they had been taking a flying trip from coast to coast, robbing right and left.

These letters also showed they had agreed to meet in New York city October 1, and then go to St. Louis, where the goods would be disposed of. Evidence was found on their persons indicating that they had committed robberies at New York, San Francisco, Salt Lake City, Denver, Colorado Springs, Rome, Rochester, Dunkirk, Buffalo and Troy, N. Y.; Omaha, Gilveston, Dayton, Sandusky, Milwaukee, Cleveland and London (Ont.), Quebec and other Canadian cities.

They have hollow records as safe breakers, burglars and all around crooks. Their photographs adorn the rogues' galleries of almost every Eastern, Southern and Northern city in this country. The police of the entire country have been searching for the men for six months.

WELBURN NOT GUILTY.

One of California's Celebrated Cases
Ends in a Surprise.

San Francisco, Oct. 15.—Despite the general belief and the confident assertions of the prosecution that he would be convicted, O. M. Welburn, ex-collector of Internal Revenue in this district, the Northern district of California, who has been on trial in the United States District Court on an indictment covering forty-two distinct charges of embezzlement, was acquitted last night by the verdict of the jury. Welburn was relieved from office after an investigation conducted by Special Agent Thrasher, who was sent here from Washington for the purpose.

Soon after the removal of the United States Grand Jury found a true bill against him and his trial was begun on October 4. As collector of Internal Revenue Welburn had control of the salary and expense account as disbursing agent. It was charged that he carried men on the salary account who were not at work for the Government, and that he paid others less than were charged to the salary account. The sums said to have been embezzled were all small, though the aggregate amounted to over \$2,000.

SPITE VICTIM OF MAD CONDUCTOR.

Miss Norah Curtin Badly
Injured Through His
Action.

SHE HAD CENSURED HIM.

As She Was Alighting He Pulled
the Bell and the Car
Started.

A cable car conductor's spite nearly cost Miss Norah Curtin, of No. 274 Deiggs avenue, Brooklyn, her life on Amsterdam avenue Thursday afternoon. She is now in the Hood Memorial Hospital. At first it was feared that her skull was fractured. Fortunately that was not the case, but she suffers from a scalp wound and from shock. It is believed she will be able to leave the hospital to-morrow. It is no fault of the cable car conductor that she got off so lightly.

Miss Curtin, who is twenty-two years old, was on her way to visit her sister at No. 966 St. Nicholas avenue when the accident happened. She and about a dozen other persons were aboard an open cable car, the number of which the police have not yet been able to discover. As the car was nearing the corner of Amsterdam avenue and One Hundred and Fifty-eighth street she signalled the conductor to stop. He paid no attention to her, although a passenger on one of the rear seats notified him of her desire to alight.

Insulted by the Conductor.
The car kept on its way until the One Hundred and Sixtieth street corner was reached, when the conductor pulled the bell. As Miss Curtin was about to get off he said to her insolently that she was in "too big a hurry." She thereupon censured him for his insulting behavior. In reply he swore at her. Then, as she was stepping off, he suddenly pulled the bell and the car started so quickly that she was thrown violently far forward in the street.

The gripman was a party to her outrageous treatment, as he had heard the angry conversation and the conductor pretended that it was purely an accident. To the angry comments of the other passengers he replied that he had not had the slightest intention of injuring Miss Curtin.

While this was going on the young woman lay unconscious in the street. She revived, however, in a short time and was helped to No. 966 St. Nicholas avenue, which is two blocks away from the scene of the accident. Then a doctor was called in and by his advice an ambulance was summoned.

Hurried to Escape Arrest.

Meanwhile the car had started again, the conductor and gripman realizing that they had committed an outrage and being anxious to escape arrest. The police of the West One Hundred and Fifty-second street station tried to find them, but without success. At the railroad company's office the police were informed that no report of any accident had been turned in. The passengers, who got off the car after the accident, were so excited that they failed to note the number of the car. The police hope that some one who remained on the car took its number and will be the means of bringing the brutal conductor to justice.

HOTTEST OCT. 15 EVER RECORDED.

Thermometer Here Yester-
day Registered Eighty-
one Degrees.

TO BE WARMER TO-DAY.

After That a Wave from the
Klondike Is Due to
Freeze Things.

There was a hot time in this old town yesterday. It was caused by the sudden shooting up of the mercury to the eighty-first degree. This was the highest temperature of the day, and was registered at 4 o'clock in the afternoon. It was the high mark for October 15, according to the records of the Weather Bureau.

On October 15, 1870, the thermometer registered 80 degrees above, and on October 16 of the same year the mercury jumped to 88. This was the warmest October day in New York of which there is any record. The lowest registration yesterday was 56, at 6 a. m.

The furnace, that emitted the heat was centred in the region of the Great Lakes. The pressure was generally high, except over the Middle Rocky Mountain slope. The temperature fell in the Upper Mississippi and Missouri valleys, and rose rapidly in the lake region and New England and Atlantic States.

A Klondike wave is promised immediately after the fall equinox.

The temperature in other cities yesterday morning was as follows: Boston, 60; Washington, 54; Chicago, 70; St. Louis, 70; St. Paul, 48; Denver, 48; San Francisco, 50; New Orleans, 74; and Jacksonville, 74. The highest temperature at 8 a. m. yesterday was 78, at Jupiter, Fla., and the lowest 29, at Helena, Mont. Throughout the Northwest the average temperature was from 20 to 30.

May Have Nichols's Murderers.

Crosswell, Mich., Oct. 15.—Two men are under arrest here awaiting identification. The officers claim they answer the description of Charles A. Holmes and David Weeks, who are charged with being concerned in the murder of George Nichols near Bridgeport, Conn. A reward of \$4,000 was offered for the murderers.

**Fair Without
Foul Within**

Hosts of handsome women
fall to give to themselves
the same scrupulous
attention that they give to
their parlors and kitchens.
The apt adage that "Clean-
liness is next to godliness"
applies to the machinery of
digestion and assimilation as
well as to the external body and
its surroundings. Sallowness,
facial blemishes, headache,
stomach derangements, of-
fensive breath and
irregularity of action,
constipation, nervousness,
and general indisposi-
tion can all be removed by
the use of DR. GREEN'S
LAXATIVE CATHARTIC PILLS.
Price, 25 cents. The cathartic
that does not debilitate. Made

Green's Nervura.

BUFFALO LITHIA WATER

In Albuminuria and Bright's Disease, and in Albuminuria and Uraemic Poisoning of Gestation, etc., etc.

Dr. Alfred L. Loomis,
Professor of Pathology and Practical
Medicine in the Medical Department of
the University of New York, wrote:
"For the past four years I have used

BUFFALO LITHIA WATER

in the treatment of CHRONIC BRIGHT'S
DISEASE OF THE KIDNEYS, occurring
in GOTTY and RHEUMATIC subjects,
WITH MARKED BENEFIT."

Dr. William A. Hammond,
Surgeon-General (retired) U. S. Army,
Washington, D. C.: "I have used

BUFFALO LITHIA WATER

in the ALBUMINURIA OF PREGNANCY
WITH REMARKABLE EFFECT. When
taken in large quantities ITS INFLUENCE
IN SUCH CASES IS UNMISTAKABLY
BENEFICIAL. In one case of PUER-
PERAL MANIA it was a powerful ad-
justment to the other means used to effect a
cure.

"I have also for some time made use
of this Water in cases of affections of
the NERVOUS SYSTEM complicated with
BRIGHT'S DISEASE OF THE KID-
NEYS, or with a GOTTY DIATHESIS.
THE RESULTS HAVE BEEN EMINENTLY
SATISFACTORY."

Dr. Caleb Winslow,

Baltimore, Member of the Medical and
Chirurgical Faculty of Maryland:
"I have found the

BUFFALO LITHIA WATER

of marked service in RELIEVING THE
NAUSEA OF PREGNANT WOMEN. I
FREQUENTLY RESORT TO IT AT IN-
TERVALS DURING THE WHOLE
COURSE OF PREGNANCY. Being an-
tacid, diuretic, and tonic, it seems WELL
ADAPTED TO RELIEVE THE DISTURB-
ANCE usually ATTENDANT UPON
GESTATION, and I have no doubt its
free use MIGHT REMOVE URAEMIC
POISON, and PREVENT CONVUL-
SIONS produced thereby."

Dr. M. L. James,

Richmond, Va., Emeritus Professor of
Practice of Medicine, Medical College of
Virginia:
reported to the Richmond Academy of
Medicine "a case of CONGESTION OF
THE KIDNEYS in a lady eight months
advanced in PREGNANCY, attended by
marked OEDEMA, and by URAEMIC
POISONING to such an extent as VERY
SERIOUSLY IMPAIRED her VISION,
RELIEVED by the FREE USE of this
WATER for THREE WEEKS. Other
remedies were used in these cases, but
the FAVORABLE RESULTS SEEMED
CLEARLY ATTRIBUTABLE TO THE AC-
TION OF THE WATER."

BUFFALO LITHIA WATER

Dr. Wm. H. Drummond,
Professor of Medical Jurisprudence, Bish-
op's University, Montreal, Canada:
"In the Acute and Chronic Nephritis
of Gouty and Rheumatic Origin, as well
as in the grave ALBUMINURIA of
PREGNANCY, I have found

BUFFALO LITHIA WATER

to act as a VERITABLE ANTIDOTE,
AND I KNOW OF NO OTHER NATU-
RAL AGENT POSSESSING THIS IMPOR-
TANT QUALITY."

Dr. Preston Roane,

of Winston, N. C.:
"In a case of almost total suppression
of Urine, in a woman in the LATTER
STAGES OF GESTATION, WITH strong
THREATENINGS OF CONVULSIONS,
after exhausting without effect the most
potent diuretics of the materia medica, I
put her upon the

BUFFALO LITHIA WATER

half a gallon a day, which produced a
copious action of the kidneys, followed
by relief of the alarming symptoms. I
ATTRIBUTE THE SAFE TERMINA-
TION ENTIRELY TO THE USE OF
THIS WATER."

Dr. James B. McCaw,

of Richmond, Va., Emeritus Professor
Medical College of Virginia, &c.,
before the Richmond Va. Academy of
Medicine, spoke of the "GREAT VALUE
of

BUFFALO LITHIA WATER

in ALBUMINURIA of Pregnancy."

Dr. Harvey L. Byrd,

of Baltimore, Md., President and Profes-
sor of Obstetrics and Diseases of Women
and Children, in the Baltimore Medical
College:
"I have prescribed

BUFFALO LITHIA WATER

with the most satisfactory results, both
as a remedy and prophylactic in the
PUERPERAL or PREGNANT condition,
for the relief of troublesome vomiting
and the PREVENTION OF PUERPERAL
ECLAMPSIA or CONVULSIONS."

Dr. Henry Carpenter,

of Lancaster, Pa.: "I have found

BUFFALO LITHIA WATER

HIGHLY EFFICACIOUS IN URAEMIC
POISONING supervening confinement."

Dr. George M. Miltenberger,

Professor of Obstetrics, University of
Maryland:
before the Medical and Chirurgical Fac-
ulty of Maryland, 1880, recommended

BUFFALO LITHIA WATER

as a diuretic in ALBUMINURIA OF
PREGNANCY.

Dr. W. H. Doughty,
Professor of Materia Medica and Thera-
peutics, Medical College of Georgia:
"OVER THE NAUSEA and VOMITING
OF PREGNANCY, particularly in the lat-
ter months, where URAEMIC conditions
are possibly established, and in PUERPE-
RAL CONVULSIONS, URAEMIA co-exist-
ing.

BUFFALO LITHIA WATER

OFTEN EXERTS MARKED CONTROL."

Dr. G. A. Foote,

of Warrenton, N. C., ex-President State
Medical Society:
"WHEN WELL NIGH IN EXTREMIS
from CHRONIC BRIGHT'S DISEASE OF
THE KIDNEYS, and without hope of re-
lief from any remedy, I was, by the use of

BUFFALO LITHIA WATER

for a few months, RESTORED TO PER-
FECT HEALTH and active professional
life. In ALBUMINURIA and NAUSEA
attending PREGNANCY, I have used this
Water with the most satisfactory results."

Dr. Graeme M. Hammond,

of New York, Professor of Diseases of the
Mind and Nervous System, in the New
York Post-Graduate Medical School and
Hospital:
"In all cases of BRIGHT'S DISEASE
OF THE KIDNEYS I have found

BUFFALO LITHIA WATER

OF THE GREATEST SERVICE IN IN-
CREASING THE QUANTITY OF URINE
and in ELIMINATING THE ALBUMEN."

Geo. Halstead Boyland, M. A., M. D.,

of Paris, Doctor of Medicine of the Faculty
of Paris, says:
"There is no remedy so ABSOLUTELY
SPECIFIC IN ALL FORMS OF ALBUMI-
NURIA and BRIGHT'S DISEASE, wheth-
er ACUTE or CHRONIC, as

BUFFALO LITHIA WATER

Spring No. 2, accompanied by a milk diet.
IN ALL CASES OF PREGNANCY where
ALBUMEN is found in the urine as late as
the last week before confinement, IF THIS
WATER and a MILK DIET ARE PRE-
SCRIBED, the ALBUMEN DISAPPEARS
RAPIDLY from the URINE, and the PA-
TIENT has A POSITIVE GUARANTEE
AGAINST PUERPERAL CONVULSIONS."

Is for sale by Grocers and Druggists, generally. Pamphlets on application.
